Playing rules

1. This tournament is played according to the current ICCF Playing Rules for individual tournament games played normally by email, and the official guidelines to these. Both documents (in English version) are enclosed to the start list of the tournament.
2. The start date is 11.4.2006, but of course you may start play as soon as you want; playing time is not counted until the start date. It is highly recommended to start the games just a few days after receiving the start list.
3. For sending of moves, the use of international numeric notation is mandatory, unless both players agree, at the outset of their game, to use a clearly defined alternative notation. The ICCF playing template must be used and continuously updated each move, with dates, as shown in the following example:

Event: FOGLAR veterans – SIM-A
Start Date: 11/04/2006

White: Andy Anony (ITA) (2318)
Black: Ned Noname (SUI) (2305)

White leave: 8/10/06 to 14/10/06 (7 days) etc. etc.
Black leave:

				White	Black				
Rec.	Sent	Total	No.	Move	Move	Rec.	Sent	Total	
...	10/04	00/00	01	5254	5755	11/04	20/04	09/09	
	21/04	21/01	00/00	02	7163	2836	22/04	23/04	01/10
	24/04	26/04	02/02	03	6134	6835	29/04	29/04	00/10
	30/04	10/05	10/12	04	5171	7857	11/05	17/05	06/16
									etc. etc.

In the case of dispute, a full copy of the continuous playing template must be provided to the TD or the Appeal Commission.

4. No result will be recorded if the moves are not sent in! It is a big help for the TD if this is done by email in PGN format. A games database will be made available to all players at the end of the tournament.

The recommended method for reporting completed games for publication purposes is as in this "Sample report":

Dear Chessfriends,

this tournament is organized in memory of an excellent man, Mr. Stanislav Foglar.

Please, confirm the receiving of the start list to the TD as soon as possible.

Accept our best wishes of success!

AMICI SUMUS!

Ing. Petr BUCHNICEK
ICCF delegate of Czech CCA

Mgr. Josef SYKORA
the main organizer of the event

Mr. Stanislav Foglar (11.4.1913 – 9.7.2004) was a significant person of Czech, Czechoslovak and international chess. This international arbiter, awardee of Bertl von Massow golden medal for his contribution to development of international correspondence chess, captain of Czech team, which won gold medals in 5th Olympiad and silver medals in the next one, the main originator of those and many others great successes, is no longer among us. In honour of him, the Czech CCA organizes above mentioned event, which will be started every year on his birthday.
